BACKGROUND

TIAPPOINT was established in 2013 as a Structural Steel Erecting Company to deliver erecting services within the Eastern Cape. Numerous opportunities emerged within the market for small and medium businesses to contribute within the construction industry.

TIAPPOINT's greatest asset and competitive edge in the market is the substantial years of experience and expertise in the field of steel erecting.

The experience of the team supervisors as steel erectors exceeds 10 years and the average years of experience of the team members range from 15 years to 6 years.

The organization consists of three erecting teams ranging from 12 to 8 team members.

The organization prides themselves in the consistent compliance to the legislative framework that governs good practice within the construction industry complements the expertise of the TIAPPOINT teams. Their commitment to compliance is reflected in the continuous adherence to the employee and financial statutory requirements. This enables TIAPPOINT to provide clients with the relevant documentation on request. Health & Safety files and audits are delivered as a priority on all sites and the teams endeavor to deliver first off compliance in all matters related to H&S.

MANAGEMENT AND OWNERSHIP:

TIAPOINT is joint owned by Johannes Seekoei (51%) and Ginkel Venter (49%).

Johannes Seekoei is actively involved in the management of an erecting crew and deals with site related issues on a daily basis.

- ✓ B-BBEE : Level 2
